Formulate planning and action with ExecBlueprints

ExecBlueprints™ is an executive-focused collection from Books24x7 that provides best practices insight on strategic business issues. Authored by leading industry executives who are regarded as demonstrated leaders in their field, each article addresses a particular topic and includes three to five authors, thus providing diverse viewpoints. The ExecBlueprints articles are concise, actionable, and convey key issues, metrics, and lessons learned for successful execution. In addition, the Books24x7 On Demand Platform supports an executive's preferred method for consuming information by providing the articles online, in downloadable text format and MP3 audio—all easily accessible from a PC or mobile device.

Near-term actionable information for senior executives

ExecBlueprints provides unique industry perspectives from a diverse author base that includes executives from Fortune 1000 companies, expert consultants, lawyers and senior leaders from top global companies. ExecBlueprints' five practice areas—Corporate Management Strategies, Human Capital Management Strategies, Legal & Financial Strategies, Sales & Marketing Strategies and Technology Strategies—target the needs of CEOs, CMOs, CFOs, CIO/CTOs and other executives, directors and senior managers, and can ensure they are staying current and informed on those issues which have a direct impact on success.

The topics addressed represent the most current key issues being faced by today's business leaders. Just some of the sample reports include: *Presenteeism: Identifying the Risks and Solving the Problems*, *Aligning Company Goals while Maximizing Shareholder Value* and *Management Strategies for Women*.
