

Skillsoft® Books24x7® OfficeEssentials™

Best-in-class information on applications and devices

OfficeEssentials is a collection of full-text online books that provide valuable instruction and quick answers to questions on a wide range of devices, office applications and graphical programs.

Millions of computer and mobile device users around the world use OfficeEssentials for just-in-time information on current and popular applications and devices. OfficeEssentials provides recent, relevant, best-in-class titles, so users can find the answers they need when they need them.

Topics covered in the collection include:

- Desktop Applications including the latest Microsoft® Office applications
- Devices including smartphones and tablets with Apple® or Android operating systems
- Desktop Operating Systems including Microsoft, Apple, Linux
- General Computing
- Internet and Web
- Social Networking
- Graphics and Design

OfficeEssentials not only helps users understand job-critical applications, but also helps organizations reduce their support desk burden. The collection is mobile-accessible and is equipped with highly optimized search capabilities, enabling users to find trusted information anytime, anywhere. Users can search, browse and view every word, figure and table from an array of titles—ranging from beginner through advanced. Subscribers can also add bookmarks, create folders and share ratings and comments on the titles with others in their organization.

The advanced Excel® programming books have enabled me to create time-saving applications that reduce data entry and increase the time and efficiency for analyzing our financial data.

Value added benefits

Subscribers to the OfficeEssentials collection, receive several value-added benefits including:

Publishers

Industry-leading publishers, including John Wiley & Sons (including “for Dummies” titles), McGraw-Hill, Apress, Sybex and Cengage Course PTR, contribute recent and relevant content to the collection.

New Title Notifications/ RSS

Users are notified of new title additions by “New Title Notification” email alerts that can be personalized to provide information on only the topics they are interested in. RSS feeds enable users to stay apprised of specific-interest content without the need for email messages.

Live Tables™

The LiveTables productivity tool enables users to download the rich data tables found in OfficeEssentials titles into the most commonly used spreadsheet applications for personal manipulation and use.

Mobile Access

Users can access titles from any web-browser enabled device including smartphones, tablets, laptops, and desktops. The viewing experience is optimized for each device.
