

## Skillsoft® Cisco® KnowledgeCenter™

### Skillsoft's Cisco resources all in one portal

The Cisco KnowledgeCenter incorporates Skillsoft's Cisco resources into a comprehensive portal ideal for all levels of Cisco users ranging from beginner to intermediate to advanced.

The KnowledgeCenter provides access to targeted books and courses, practice labs, formal learning paths, test prep exams, and carefully selected tools and mentoring services that connect learners to live experts. Skillsoft's multi-modal Cisco resources are organized in a single, easy-to-use portal, helping users to become more proficient.

The Cisco KnowledgeCenter covers a range of Cisco products and technologies including:

- Routers and switches
- Security and VPN
- Cisco IOS
- Voice and unified communications
- IP

The KnowledgeCenter also presents featured topics that are updated monthly by Skillsoft Cisco experts, Skillsoft resources related to the topics, formal learning roadmaps, as well as links to related industry articles.

*Learners get instant, easy-to-use access to bundled resources.*

## Highlights from the Cisco KnowledgeCenter

### Roadmaps

Whether employees are new to Cisco products, want to enhance their existing skills, or plan to get certified, there's a structured learning roadmap in the KnowledgeCenter to meet their needs.

### Connect with the Experts

Need expert advice or exam tips? Employees can email or chat directly with professionals in our expert center.

### Search and Learn

Skillsoft's patented search allows employees to find exactly the information they need, when they need it.

### Monthly Challenges

Each month Skillsoft's experts prepare a challenge for employees—a series of questions related to the month's featured topic along with a link to view the solutions.

### TestPrep™ Exams

Provides practice exams for Cisco certifications.

### Practice Labs

Skillsoft's practice labs provide practical training in targeted areas and are particularly effective for refreshing existing skills. Comprised of engaging, stimulating exercises and simulations, labs provide an accelerated learning experience of benefit to both novice and advanced learners.

Learning Roadmaps in the Cisco KnowledgeCenter includes the following certification coverage:

- Cisco Certified Network Associate (CCNA), CCNA Security, CCNA Voice
- Cisco Certified Design Associate (CCDA)
- Cisco Certified Network Professional (CCNP), CCNP Security, CCNP Voice
- Cisco Certified Design Professional (CCDP)
- Cisco ASA Specialist
